

Environmentalists For Nuclear Energy

Introduction to EFN

EFN (Environmentalists For Nuclear Energy) is an international not-for-profit organization which provides complete and straightforward information about energy and the environment; makes known the advantages of nuclear energy, and especially the environmental advantages; brings together persons favoring the use of nuclear energy for peaceful purposes with respect for the environment and with good management of nuclear waste.

EFN is an independent organization which works in close cooperation with its local correspondents and sister organizations in different regions of the world. It encourages the creation of similar organizations in other countries, to develop an international network of Environmentalists For Nuclear Energy.

EFN seeks to unite people who are concerned about the future of our planet and want to keep it clean and to protect nature, using clean and safe energies.

History of EFN

EFN started growing in 1996 around Bruno Comby, author of 10 books on a natural lifestyle and of the book "Environmentalists For Nuclear Energy" (the Japanese edition by ERC publishin/ Tokyo is presented on www.comby.org, click on the Japanese flag then on "books"). EFN currently has over 10,000 members, supporters, and local correspondents in more than 60 countries around the world, to promote clean and safe applications of nuclear energy, for a better and cleaner planet.

The point of view of EFN

EFN considers the opposition of some environmental groups such as Greenpeace to clean uses of nuclear energy as a major historical mistake. When well managed, nuclear energy is a very clean energy, does not emit polluting gases into the atmosphere, uses very few construction materials per kWh compared to solar and wind energy, produces very little waste which can be almost totally confined, is very safe, produces no carbon dioxide, therefore does not contribute to the greenhouse effect. Our members, because they are environmentalists, are therefore in favor of nuclear energy.

EFN works at informing the public of the environmental benefits of nuclear energy, the only clean energy source massively available to satisfy the needs of the modern world.

EFN encourages energy conservation, renewable energies, and self sustainable lifestyles, as well as existing clean nuclear technology and future types of nuclear reactors. Pr James Lovelock, author of the Gaia theory, the historical father of environmental awareness around the world since the 1960's (see: www.ecolo.org/lovelock/), is a member of EFN and shares EFN's point of view that nuclear energy is "The only ecological solution" (The Independent, 24 May 2004).

Join EFN !

Environmentalists For Nuclear Energy is a not-for-profit organization.
All dues-paying members receive a receipt for their membership and are informed by e-mail.

To become a member, or to update your membership, fill out this form and fax it to :

Environmentalists For Nuclear Energy

Fax: +33 9 55 29 00 22

E-mail: nuc-jp@ecolo.org

www.ecolo.org

First Name* : _____ Last Name* : _____
Address* : _____
Zip code* : _____ City* : _____ Country : _____
Phone : _____ Fax** : _____
E-mail* : _____ Occupation : _____ Age : _____

* Required zone ** Required only if you pay by wire transfer

Please register or update my membership for one year in the following category :

- q **Supporter:** I approve your action (FREE - send by fax)
- q **Standard Membership:** 4 000 JPY for one year
- q **Active Membership:** 8 000 JPY for one year
- q **Donating Membership:** 16 000 JPY for one year.

Welcome as a member or supporter of EFN. You will be informed of EFN's activities by e-mail through our mailing list. New members are admitted subject to the approval of the Board of Directors.

- q I agree to be a local correspondent of EFN in my area in JAPAN: _____
- q Additional donation to support the association: _____ JPY.

Total amount: _____ JPY
paid by: q credit card q wire transfer q cheque
to the order of: "Environmentalists For Nuclear Energy."

Date : _____ Signature : _____

Payment may be made by one of the following methods :

- **by credit card (in JPY):** go to the web site www.ecolo.org click on the Japanese flag and then on "subscription", and follow the instructions for payment by credit card. The amount of your payment will be debited from your credit card account. Do not send your card number to EFN, make the payment as indicated on the web site.
- **by wire transfer (in Euros):** 1- Fill out this registration form and send it by fax it to the fax number mentioned above. 2- Send an e-mail to nuc-en@ecolo.org asking for instructions concerning payment by wire transfer. You will receive instructions by e-mail.
- **by cheque (in Euros):** fill out and send this membership registration form by traditional mail with your cheque to: Association des Ecologistes Pour le Nucléaire (AEPN), 55 rue Victor Hugo, 78800Houilles, France. Cheques are to be denominated in Euros and must be drawn on a bank located in France. If your bank is not located in France, you can ask your banker to prepare a check or money order drawn on a French bank.
